

Name: Indoor soft modular playground equipment for church

Item: DLID06

Size: Can be customized

Features: Trampoline, Coconut tree, Double slide, Tree house, ballpool, Single log bridge, Rainbow climber

Description of indoor playground

This is a simple two-layer Jungle theme park. There is a trampoline in the tree house, children would feel closer to the nature. The coconut tree strengthen the ability of climbing. This indoor structure is great for restaurants, malls, daycare centers, etc. and of course an indoor playground park!

Note:

1. we could make a new design according to your indoor structure.
2. we have forest theme, Ocean theme, Castle theme, candy theme and classic theme design for your reference.
3. If you need the new design, please attach your indoor structural drawing and detailed requirement.
